

C Program to sort string in alphabetical order

Algorithm :-

- 1) start
- 2) Input to sort string in alphabetical order
- 3) temp = i, j
- 4) n = strlen(string);
- 5) for (i = 0; i < n - 1; i++)  
    {  
        for (j = i + 1; j < n; j++)  
        {  
            if (string[i] > string[j])  
            {  
2) temp = string[i];  
        string[i] = string[j];  
        string[j] = temp;  
3) output the sorted string  
8) stop
